Full-Circle Learning

MyLab™: Learning Full Circle for Marketing, Management, Business Communication, Intro to Business, and MIS

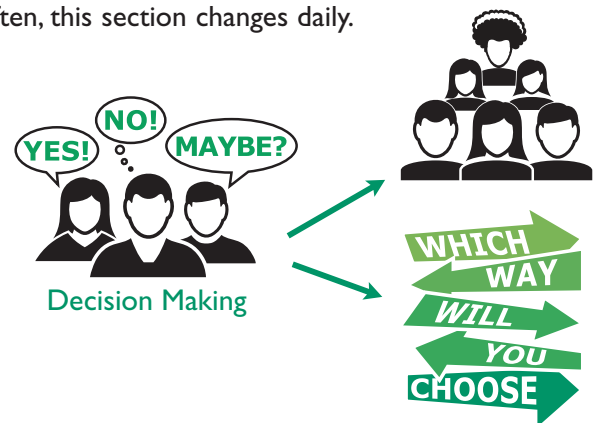

This page intentionally left blank

MyManagementLab™: Improves Student Engagement Before, During, and After Class

- **Video exercises** – engaging videos that bring business concepts to life and explore business topics related to the theory students are learning in class. Quizzes then assess students’ comprehension of the concepts covered in each video.
- **Learning Catalytics** – a “bring your own device” student engagement, assessment, and classroom intelligence system helps instructors analyze students’ critical-thinking skills during lecture.
- **Dynamic Study Modules (DSMs)** – through adaptive learning, students get personalized guidance where and when they need it most, creating greater engagement, improving knowledge retention, and supporting subject-matter mastery. Also available on mobile devices.
- **Business Today** – bring current events alive in your classroom with videos, discussion questions, and author blogs. Be sure to check back often, this section changes daily.

- **Decision-making simulations** – place your students in the role of a key decision-maker. The simulation will change and branch based on the decisions students make, providing a variation of scenario paths. Upon completion of each simulation, students receive a grade, as well as a detailed report of the choices they made during the simulation and the associated consequences of those decisions.

- **Writing Space** – better writers make great learners—who perform better in their courses. Providing a single location to develop and assess concept mastery and critical thinking, the Writing Space offers automatic graded, assisted graded, and create your own writing assignments, allowing you to exchange personalized feedback with students quickly and easily.

Writing Space can also check students’ work for improper citation or plagiarism by comparing it against the world’s most accurate text comparison database available from **Turnitin**.

- **Additional Features** – included with the MyLab are a powerful homework and test manager, robust gradebook tracking, comprehensive online course content, and easily scalable and shareable content.

About the Authors xxxi

PART 1 Introduction to Modern Management 1

1 Introducing Modern Management: Concepts and Skills 1

Management Skill 1

CHALLENGE CASE: An IBM Success Story: Rodney Adkins 2

The Modern Management Challenge 2

A Manager's Task 3

The Role of Management 4

Defining Management 4

The Management Process: Management Functions 5

Management Process and Organizational Resources 6

■ **Practical Challenge: Attaining Goals:**

Michael Hoffman Achieves User Satisfaction at New York Passport Agency 7

Management and Organizational Resources 7

The Universality of Management 9

Management Skill: The Key to Management Success 9

Defining Management Skill 9

Management Skill: A Classic View 10

Management Skill: A Contemporary View 10

■ **Steps for Success: Developing Human Skills** 11

Management Skill: A Focus of This Book 11

Management Careers 13

A Definition of Career 14

Career Stages, Life Stages, and Performance 14

Promoting Your Own Career 15

■ **Tips for Managing around the Globe: Making the Most of International Experience** 15

Special Career Issues 16

Challenge Case Summary 18

Class Preparation and Personal Study 19

Management Skill Exercises 20

PART 2 Modern Management Challenges 24

2 Managers, Society, and Sustainability 24

Social Responsibility Skill 24

CHALLENGE CASE: IKEA Builds on Its Commitment to the Environment 25

The Social Responsibility Challenge 25

Fundamentals of Social Responsibility 26

Areas of Social Responsibility 26

Varying Opinions on Social Responsibility 26

Conclusions about the Performance of Social Responsibility Activities by Business 27

Social Responsiveness 29

Determining Whether a Social Responsibility Exists 29

Social Responsiveness and Decision Making 30

■ **Tips for Managing around the Globe: Are Clothing Retailers Responsible for Bangladeshi Garment Workers?** 30

Approaches to Meeting Social Responsibilities 31

The Social Audit Challenge 32

The Philanthropy Challenge 33

The Sustainable Organization Challenge 34

Defining Sustainability 34

Defining a Sustainable Organization 34

Why Sustainability? 35

Steps for Achieving Sustainability 36

■ **Practical Challenge: Achieving Sustainability: General Mills** 36

Managers and Ethics 38

A Definition of Ethics 38

Why Ethics Is a Vital Part of Management Practices 38

A Code of Ethics 39

Creating an Ethical Workplace 40

■ **Steps for Success: Creating an Ethical Work Environment** 41

Following the Law: Sarbanes–Oxley Reform Standards 42

Challenge Case Summary 43

Class Preparation and Personal Study 44

Management Skill Exercises 45

3 Management and Diversity 51

Diversity Skill 51

CHALLENGE CASE: Diverse Employees Contribute to GE Lighting's Bright Future 52

The Diversity Challenge 53

Defining Diversity 53

The Social Implications of Diversity 53

Advantages of Diversity in Organizations	53	The Workforce of Multinational Corporations	85
Gaining and Keeping Market Share	54	Types of Organization Members Found in Multinational Corporations	86
Cost Savings	54	Workforce Adjustments	86
Increased Productivity and Innovation	55	Adjusting to a New Culture	86
Better Quality Management	55	Repatriation	86
Challenges That Managers Face In Working With Diverse Populations	56	Management Functions and Multinational Corporations	87
Changing Demographics	56	Planning in Multinational Corporations	87
Multi-Generation Workforce	57	Organizing Multinational Corporations	90
Ethnocentrism and Other Negative Dynamics	57	Influencing People in Multinational Corporations	92
■ Practical Challenge: Neutralizing Stereotypes: BAE Systems Battles Stereotyping with Awareness	58	■ Steps for Success: Leading in Other Cultures	94
Negative Dynamics and Specific Groups	59	Controlling Multinational Corporations	94
Strategies For Promoting Diversity In Organizations	61	Transnational Organizations	95
Promoting Diversity through Hudson Institute Strategies	62	International Management: Special Issues	95
Promoting Diversity through Equal Employment and Affirmative Action	62	Maintaining Ethics in International Management	95
Promoting Diversity through Organizational Commitment	63	■ Tips for Managing around the Globe: Oxfam's Push for Ethical Practices	96
Promoting Diversity through Pluralism	65	Preparing Expatriates for Foreign Assignments	97
■ Tips for Managing around the Globe: Promoting Diversity Globally: The Sodexo Example	65	Challenge Case Summary	97
How Managers Promote Diversity	67	Class Preparation and Personal Study	98
Planning	67	Management Skill Exercises	99
Organizing	67		
Influencing	67		
■ Steps for Success: Motivating across the Generations	68		
Controlling	68		
Management Development and Diversity Training	69		
Challenge Case Summary	71		
Class Preparation and Personal Study	72		
Management Skill Exercises	73		
4 Managing in the Global Arena	78		
Global Management Skill	78		
CHALLENGE CASE: McDonald's Is Lovin' Global Growth	79		
The Global Management Challenge	79		
Fundamentals of International Management	80		
Categorizing Organizations By Level of International Involvement	81		
Domestic Organizations	82		
International Organizations	82		
Multinational Organizations: The Multinational Corporation	82		
Multinational Corporations	82		
Complexities of Managing the Multinational Corporation	83		
■ Practical Challenge: Managing Risk: Lenovo's East-to-West Strategy	85		
Risk and the Multinational Corporation	85		
		PART 3 Planning	105
		5 Plans and Planning Tools	105
		Planning Skill	105
		CHALLENGE CASE: Wal-Mart Plans to Have What You Want	106
		The Planning Challenge	106
		General Characteristics of Planning	107
		Defining Planning	107
		Purposes of Planning	107
		Planning: Advantages and Potential Disadvantages	107
		Primacy of Planning	108
		Types of Plans	108
		Standing Plans: Policies, Procedures, and Rules	108
		■ Steps for Success: Writing Effective Policies and Procedures	109
		Single-Use Plans: Programs and Budgets	110
		Steps in the Planning Process	111
		Organizational Objectives: Planning's Foundation	112
		Definition of Organizational Objectives	112
		Areas for Organizational Objectives	114
		Working with Organizational Objectives	114
		Guidelines for Establishing Quality Objectives	115
		Management by Objectives (MBO)	115
		Factors Necessary for a Successful MBO Program	116
		MBO Programs: Advantages and Disadvantages	116

Planning Tools 117
 Forecasting 117
 ■ **Tips for Managing around the Globe:**
 Forecasting Supply of Raw Materials:
 Mars Inc. 118
 Scheduling 121
 ■ **Practical Challenge: Meeting Schedules:**
 Clark/McCarthy Joint Venture Builds Navy
 Hospital Ahead of Schedule 122
 Why Plans Fail 123
Challenge Case Summary 124
 Class Preparation and Personal Study 125
 Management Skill Exercises 126

6 Making Decisions 131

Decision-Making Skill 131
**CHALLENGE CASE: Whole Foods Decides
 to Open in Detroit 132**
 The Decision-Making Challenge 132
 Fundamentals of Decisions 133
 Definition of a Decision 133
 Types of Decisions 133
 The Responsibility for Making Organizational
 Decisions 134
 ■ **Tips for Managing around the Globe:**
 Shaw Industries Paves the Way for Good
 Decisions 134
 Elements of the Decision Situation 135
 The Rational Decision-Making Process 136
 Identifying an Existing Problem 137
 Listing Alternative Solutions 137
 Selecting the Most Beneficial Alternative 138
 Implementing the Chosen Alternative 139
 Gathering Problem-Related Feedback 139
 Bounded Rationality 139
 ■ **Practical Challenge: Implementing
 Decisions: K'Nex Brands Builds on Its
 Core Values 139**
 Decision Making and Intuition 140
 Decision-Making Heuristics and Biases 140
 Decision-Making Conditions: Risk and
 Uncertainty 140
 Decision-Making Tools 141
 Probability Theory 141
 Decision Trees 142
 Group Decision Making 143
 Advantages and Disadvantages of Using Groups
 to Make Decisions 143
 ■ **Steps for Success: Facilitating Group
 Decisions 144**
 Processes for Making Group Decisions 144
 Evaluating Group Decision-Making
 Processes 145
Challenge Case Summary 146
 Class Preparation and Personal Study 147
 Management Skill Exercises 148

7 Strategic Planning: Strategies, Tactics, and Competitive Dynamics 152

Strategic Planning Skill 152
**CHALLENGE CASE: Facebook Positions Itself
 to Stay Relevant 153**
 The Strategic Planning Challenge 153
 Strategic Planning and Strategy 154
 Strategic Management Process 155
 Environmental Analysis 155
 The General Environment 155
 The Industry Environment 158
 The Internal Environment 159
 Establishing Organizational Direction 159
 Determining Organizational Mission 159
 Developing a Mission Statement 160
 The Importance of an Organizational Mission 160
 The Relationship Between Mission and
 Objectives 160
 Strategy Formulation: Tools 160
 Critical Question Analysis 160
 ■ **Steps for Success: Ask the Right
 Questions 161**
 SWOT Analysis 161
 Business Portfolio Analysis 161
 Strategy Formulation: Types 164
 Sample Organizational Strategies 164
 Strategy Implementation 165
 ■ **Tips for Managing around the Globe:**
 Be Flexible: Tata Motors 165
 Strategic Control 166
 Tactical Planning 166
 Comparing and Coordinating Strategic
 and Tactical Planning 166
 Competitive Dynamics 167
 ■ **Practical Challenge: Competitive
 Dynamics for Retailers: Stores Take
 on Amazon 167**
Challenge Case Summary 169
 Class Preparation and Personal Study 170
 Management Skill Exercises 171

PART 4 Organizing 175

8 Fundamentals of Organizing 175

Organizing Skill 175
**CHALLENGE CASE: Microsoft Tries to Program
 Unity with Its New Structure 176**
 The Organizing Challenge 176
 Definitions of Organizing and Organizing Skill 177
 The Importance of Organizing 177
 The Organizing Process 178
 Classical Organizing Theory 178

Weber's Bureaucratic Model	179
Division of Labor	179
Advantages and Disadvantages of Division of Labor	180
Division of Labor and Coordination	180
Follett's Guidelines on Coordination	180
■ Practical Challenge: Coordination: How the MBTA Moved Forward with Security	181
Structure	181
Informal Organizational Structures	181
Vertical Dimensioning	182
Horizontal Dimensioning	184
Types of Departmentalization	184
■ Tips for Managing around the Globe: Reorganizing for Mature Businesses: Yum Brands	184
Departments Based on Function	185
Departments Based on Product or Service	186
Departments Based on Geography	186
Departments Based on Customer	187
Departments By Matrix	188
■ Steps for Success: Managing in a Matrix Structure	189
Challenge Case Summary	190
Class Preparation and Personal Study	192
Management Skill Exercises	192

9 Responsibility, Authority, and Delegation 197

Responsibility and Delegation Skill	197
CHALLENGE CASE: Toyota to Delegate Authority	198
The Responsibility and Delegation Challenge	198
Responsibility and Job Descriptions	199
■ Steps for Success: Writing a Well-Crafted Job Description	199
Dividing Job Activities	200
The Functional Similarity Method	200
Functional Similarity and Responsibility	200
Clarifying Job Activities of Managers	201
Management Responsibility Guide	201
Authority	202
Authority on the Job	202
Acceptance of Authority	203
Types of Authority	203
Accountability	205
Delegation	206
■ Practical Challenge: Accountability: How Extended Stay America Eased the Sting of Accountability	206
Steps in the Delegation Process	207
Obstacles to the Delegation Process	207
Eliminating Obstacles to the Delegation Process	208
Centralization and Decentralization	208

Decentralizing an Organization: A Contingency Viewpoint 209

■ **Tips for Managing around the Globe:** Decentralizing for Diverse Markets: The Four Seasons Example 209

Decentralization at Massey-Ferguson: A Classic Example from the World of Management 210

Challenge Case Summary 211

Class Preparation and Personal Study	213
Management Skill Exercises	213

10 Human Resource Management 218

Human Resource Management Skill 218

CHALLENGE CASE: Cisco Recruits the Best Minds in... Cisco 219

The Human Resource Management Challenge 219

Defining Appropriate Human Resources 220

Recruitment 220

 Knowing the Job 220

 Knowing Sources of Human Resources 221

 Sources Outside the Organization 224

 ■ **Tips for Managing around the Globe:** European Companies Need Women on Their Boards 225

 Knowing the Law 225

Selection 226

 Testing 226

 Assessment Centers 227

Training 227

 Determining Training Needs 228

 Designing the Training Program 229

 Administering the Training Program 229

 ■ **Steps for Success:** Preparing for Computer-Based Training 230

 Evaluating the Training Program 230

Performance Appraisal 231

 Why Use Performance Appraisals? 231

 ■ **Practical Challenge: Appraising Executives' Performance:** For Citigroup Executives, It Is All about Numbers 232

 Handling Performance Appraisals 232

 Potential Weaknesses of Performance Appraisals 232

Challenge Case Summary 233

 Class Preparation and Personal Study 235

 Management Skill Exercises 235

11 Changing Organizations: Stress, Conflict, and Virtuality 240

Organizational Change Skill 240

CHALLENGE CASE: How Huntington Hospital Introduced Electronic Health Records 241

The Organizational Change Challenge 242

Fundamentals of Changing an Organization 242
 Defining Changing an Organization 242
 Change Versus Stability 243

Factors to Consider When Changing an Organization 243
 The Change Agent 243
 Determining What Should Be Changed 244
 The Kind of Change to Make 245
 Individuals Affected by the Change 247

■ **Tips for Managing around the Globe:**
 Try Out Change in One Country First: Avon's Experience 249
 Evaluation of the Change 249

Change and Stress 249
 Defining Stress 249
 The Importance of Studying Stress 250
 Managing Stress in Organizations 250

■ **Steps for Success:** Managing Stress 251

Change and Conflict 253
 Defining Conflict 253
 Strategies for Settling Conflict 253

■ **Practical Challenge: Managing Conflict:**
 Southwest Airlines Embraces Positive Conflict 253

Virtuality 255
 Defining a Virtual Organization 255
 Degrees of Virtuality 255
 The Virtual Office 256

Challenge Case Summary 257
 Class Preparation and Personal Study 259
 Management Skill Exercises 260

PART 5 Influencing 265

12 Influencing and Communication 265

Communication Skill 265

CHALLENGE CASE: How Evernote's Phil Libin Keeps Communication Flowing 266

The Communication Challenge 266

Fundamentals of Influencing 267
 Defining Influencing 267
 The Influencing Subsystem 267

Emotional Intelligence 269

■ **Practical Challenge: Recognizing Influencers:** How Cigna Is Tapping Influential Employees 269

Communication 270
 Interpersonal Communication 271

■ **Tips for Managing around the Globe:**
 Overcoming Cultural Barriers: The Lenovo Example 273

■ **Steps for Success:** Communicating with Eye Contact 277

Interpersonal Communication in Organizations 277
 Formal Organizational Communication 278

Informal Organizational Communication 279
 Encouraging Organizational Communication 281

Challenge Case Summary 282
 Class Preparation and Personal Study 283
 Management Skill Exercises 284

13 Leadership 289

Leadership Skill 289

CHALLENGE CASE: Iwata Faces Many Different Issues at Nintendo 290

The Leadership Challenge 290
 Defining Leadership 291
 Leader Versus Manager 291

Early Approaches to Leadership 292
 The Trait Approach to Leadership 292
 Behavioral Approaches to Leadership 292

More Recent Approaches to Leadership 294

■ **Tips for Managing around the Globe:**
 Leadership Perceptions Vary by Culture, Say Researchers 294

The Life Cycle Theory of Leadership 295
 Fiedler's Contingency Theory 296
 The Path-Goal Theory of Leadership 298

A Special Situation: How Leaders Make Decisions 299
 The Tannenbaum and Schmidt Leadership Continuum 299
 The Vroom-Yetton-Jago Model 302

Leaders Changing Organizations 303
 The Tasks of Transformational Leaders 304

Leaders Coaching Others 304

■ **Steps for Success:** Becoming a Transformational Leader 304
 Coaching Behavior 305

Leadership: Emerging Concepts for Modern Times 306
 Servant Leadership 306
 Level 5 Leadership 307

■ **Practical Challenge: Leading for Greatness:** How Ursula Burns, Xerox CEO, Meets the Leadership Challenge 308
 Authentic Leadership 308

Challenge Case Summary 310
 Class Preparation and Personal Study 312
 Management Skill Exercises 312

14 Motivation 318

Motivation Skill 318

CHALLENGE CASE: American Express Taps the Full Potential of Its Employees 319

The Motivation Challenge 319
 Defining Motivation 320
 Process Theories of Motivation 320
 The Needs-Goal Theory of Motivation 320

The Vroom Expectancy Theory of Motivation	321
Equity Theory of Motivation	322
The Porter-Lawler Theory of Motivation	323
Content Theories of Motivation: Human Needs	323
Maslow's Hierarchy of Needs	324
Alderfer's ERG Theory	324
■ Practical Challenge: Developing Rewards: Rewards That Motivate at Seco Tools	325
Argyris's Maturity-Immaturity Continuum	325
McClelland's Acquired Needs Theory	326
Importance of Motivating Organization Members	326
Strategies For Motivating Organization Members	327
Managerial Communication	327
■ Tips for Managing around the Globe: Communicating Rewards That Align with Values	328
Theory X-Theory Y	328
Behavior Modification	331
Likert's Management Systems	332
■ Steps for Success: Making Motivation Work	333
Monetary Incentives	334
Nonmonetary Incentives	334
Challenge Case Summary	335
Class Preparation and Personal Study	336
Management Skill Exercises	337

15 Groups and Teams 342

Team Skill	342
CHALLENGE CASE: Better Teamwork Makes Numerica Credit Union a Winner	343
The Team Challenge	344
Groups	344
Kinds of Groups in Organizations	344
Formal Groups	344
■ Steps for Success: Leading Group Development	349
Informal Groups	349
Managing Work Groups	350
Determining Group Existence	350
Understanding the Evolution of Informal Groups	352
Teams	352
Groups Versus Teams	352
Types of Teams in Organizations	353
■ Practical Challenge: Solving Problems as a Team: In the Huddle with Lawrence Hospital Center Teams	353
Stages of Team Development	355
Forming	355
Storming	355
Norming	355

Performing	355
Adjourning	356
Team Effectiveness	356
Trust and Effective Teams	357
■ Tips for Managing around the Globe: Establishing Trust in International Teams	358
Challenge Case Summary	359
Class Preparation and Personal Study	360
Management Skill Exercises	361

16 Managing Organization Culture 367

Organization Culture Skill	367
CHALLENGE CASE: Zappos Doesn't Sell Shoes—It "Delivers WOW"	368
The Organization Culture Challenge	368
Fundamentals of Organization Culture	369
Defining Organization Culture	369
The Importance of Organization Culture	369
■ Tips for Managing around the Globe: Marriott International's Code of Conduct	370
Functions of Organization Culture	370
Types of Organization Culture	371
Building a High-Performance Organization Culture	373
■ Practical Challenge: Building a High-Performance Culture: Butler Snow's Team-Oriented Culture Supports High Performance	375
Keeping Organization Culture Alive and Well	375
Establishing a Vision of Organization Culture	376
Building and Maintaining Organization Culture Through Artifacts	378
■ Steps for Success: Telling a Company's Stories	379
Integrating New Employees into the Organization Culture	380
Maintaining the Health of Organization Culture	382
Challenge Case Summary	383
Class Preparation and Personal Study	384
Management Skill Exercises	385

PART 6 Controlling 390

17 Controlling, Information, and Technology 390

Controlling Skill	390
CHALLENGE CASE: Sperry Van Ness: Harnessing Technology for Business Success	391
The Controlling Challenge	391
The Fundamentals of Controlling	392
Defining Control	392
The Controlling Subsystem	392
The Controlling Process	392
Measuring Performance	392

Comparing Measured Performance to Standards 393
 Taking Corrective Action 395
 Power and Control 396
 A Definition of Power 396
 Total Power of a Manager 397
 Steps for Increasing Total Power 397
 ■ **Tips for Managing around the Globe:**
 Exercising Power across Cultures 397
 Making Controlling Successful 398
 Essentials of Information 399
 Factors Influencing the Value of Information 399
 ■ **Steps for Success:** Getting a Handle of “Big Data” 401
 Evaluating Information 402
 The Information System (IS) 403
 Describing the IS 403
 ■ **Practical Challenge: Using Data from Social Media:** Twitter Feeds Businesses’ Needs 404
 Managing Information Systems 405
Challenge Case Summary 408
 Class Preparation and Personal Study 409
 Management Skill Exercises 410

18 Production and Control 415

Production Skill 415
CHALLENGE CASE: Better Production Planning Saves Money for 3M 416
 The Production Challenge 416
 Production and Productivity 417
 Defining Production 417
 Productivity 417
 Quality and Productivity 418
 Focus on Continual Improvement 418
 Focus on Quality and Integrated Operations 418
 ■ **Practical Challenge: Continual Improvement:** At Wisconsin Hospitals, Costs Fall as Quality Rises 419
 Automation 420
 Strategies, Systems, and Processes 421
 Operations Management 422
 Defining Operations Management 422
 Operations Management Considerations 422
 ■ **Tips for Managing around the Globe:**
 Choosing a Factory Location: Volkswagen Picks North America 424
 Operations Control 427
 Just-in-Time Inventory Control 427
 Maintenance Control 428
 Cost Control 429
 Budgetary Control 429
 ■ **Steps for Success:** Controlling with a Budget 430
 Ratio Analysis 431
 Materials Control 432

Operations Control Tools 432
 Using Control Tools to Control Organizations 432
 Inspection 433
 Management by Exception 433
 Management by Objectives 434
 Break-Even Analysis 434
 Other Broad Operations Control Tools 436
Challenge Case Summary 437
 Class Preparation and Personal Study 439
 Management Skill Exercises 440

Appendix 1 Managing: History and Current Thinking 444

Comprehensive Management Skill 444
CHALLENGE CASE: How Management Innovation Keeps Ford Moving Ahead 445
 The Comprehensive Management Skill Challenge 445
 The Classical Approach 446
 Lower-Level Management Analysis 447
 ■ **Practical Challenge: Improving Productivity:** Tracking Sensors Take Work Measurement to a New Level 448
 Comprehensive Analysis of Management 450
 Limitations of the Classical Approach 451
 The Behavioral Approach 451
 The Hawthorne Studies 452
 Recognizing the Human Variable 452
 ■ **Steps for Success:** Understanding Employees 453
 The Human Relations Movement 453
 The Management Science Approach 454
 The Beginning of the Management Science Approach 454
 Management Science Today 454
 Characteristics of Management Science Applications 455
 The Contingency Approach 455

Preface

We can't thank you enough for your kind words and encouragement over the years. *Modern Management* has helped hundreds of thousands of students around the world to grow into prepared, practicing managers. Close to its fourth decade of life, our book allows us to combine the most seminal perspectives on management with the most current research in the field. *Modern Management* has established a reputation for presenting comprehensive, easily read, and pragmatic content, and the 14th edition continues this tradition.

Managers of today continue to face new, exciting opportunities and challenges. These opportunities include highly promoted tasks, such as Google introducing contact lenses that contain cameras, Tesla Motors manufacturing premium electric vehicles, and Brookstone's Laser Projection Virtual Keyboard, which lets anybody turn any surface into a computer keyboard. At the same time, other companies face intense challenges, such as Wendy's trying to make a comeback against McDonald's, Jeep trying to make it back into the mainstream automobile market, and Samsung, a South Korean company, trying to win relevance in the Chinese market. Because these opportunities and challenges are so formidable, perhaps managers today should be paid salaries higher than those of managers at any other time in history.

TEXT: THEORY OVERVIEW

As with all previous editions, decisions about which concepts to include in this revision were difficult to make. Such decisions were heavily influenced not only by colleague and student feedback but also by information from accrediting agencies such as the Association to Advance Collegiate Schools of Business (AACSB), professional manager associations such as the American Management Association (AMA), and academic organizations such as the Academy of Management.

This edition follows the tradition of dividing management concepts into the following six main sections: Introduction to Modern Management, Modern Management Challenges, Planning, Organizing, Influencing, and Controlling. The following sections discuss the changes we made in this edition to continue the tradition of stressing the *modern* in *Modern Management*.

This edition also continues previous editions' focus on helping students not only learn management concepts but also develop the skills related to those concepts. Students can develop these skills by completing specially designed, innovative learning activities, which appear both in the text and through MyManagementLab. Further, this edition continues the authors' commitment to help students develop the management skills that they will need in the world of organizations.

This 14th edition of the *Modern Management Learning Package*—this text and its ancillaries—continues a recognized and distinctive tradition in management education. As in all previous editions, this edition of the *Modern Management Learning Package* focuses on two objectives: maximizing student learning of critical management concepts and developing related management skills. All revisions reflect instructor and student feedback regarding ways to further enhance this student development. Starting with the text, the following sections explain each major component of this revision.

MYMANAGEMENTLAB SUGGESTED ACTIVITIES

For the 14th edition, we, the authors, are excited that Pearson's MyManagementLab has been integrated fully into the text. These new MyManagementLab features are outlined below. Making assessment activities available online for students to complete before coming to class will allow you, the professor, more discussion time during class to review areas that students are having difficulty comprehending.

Assessing Your Management Skill

Previously found at the end of each chapter, this activity is now located in MyManagementLab. For every Challenge Case Summary, students can access questions that ask them how they would deal with the situation discussed in the Challenge Case located in the beginning and at the end of each chapter. This feature provides feedback based on the way students answer the questions.

Learn It

Students can be assigned the Chapter Warm-Up before coming to class. Assigning these questions ahead of time will ensure that students come to class prepared.

Watch It

This activity includes a video clip that can be assigned to students for outside-the-classroom viewing or watched in the classroom. The video clip corresponds to chapter material and is accompanied by multiple-choice questions that reinforce students' comprehension of chapter content.

Try It

This activity includes a simulation that can be assigned to students as an outside-the-classroom activity or used in the classroom. After students watch the simulation, they are asked to make choices based on the scenario presented. At the end of the simulation, students receive immediate feedback based on the answers they gave. These simulations reinforce the concepts of the chapter and students' comprehension of those concepts.

Assisted Graded Questions

These are short essay questions that students can complete as an assignment and submit to you, the professor, for grading.

NEW TO THIS EDITION

Professors and students need and deserve textbooks that are modern. In this context, *modern* involves adding the latest concepts and empirical research as well as including the most recent examples of management in the business world. *Modern* also refers to how the text material is presented—the pedagogy used to help students learn the concepts. This edition of the *Modern Management Learning Package* is undoubtedly modern in terms of *both* management concepts *and* pedagogy. Overall, this new edition includes the following features:

- The core material in this edition, like all previous editions, focuses on planning, organizing, influencing, and controlling; but the total number of chapters has been reduced to 18. For courses that need to include more coverage and topics, additional, optional learning appendices have been included. The appendices focus on management history, entrepreneurship, and creativity and innovation.
- Nine of the chapter-opening Challenge Cases are new, and related Challenge Case Summaries have been revised accordingly.
- Nine of the end-of-chapter cases are new to this edition.
- A new Steps for Success highlight has been added to each chapter.
- A new Tips for Managing around the Globe highlight has been added to each chapter.
- A new Practical Challenge highlight has been added to each chapter.
- Each chapter has been generally revised to reflect up-to-date, significant, and relevant research.
- Photos have been updated to make the pedagogy more relevant and inviting.

Chapter-by-Chapter Changes

PART 1: INTRODUCTION TO MODERN MANAGEMENT

This section contains the foundation concepts necessary to obtain a worthwhile understanding of management.

- **Chapter 1, “Introducing Modern Management: Concepts and Skills”** This chapter introduces the primary activities that modern managers perform and discusses the skills that help managers to be successful throughout their careers. The new Practical Challenge highlight discusses how Michael Hoffman attains goals at New York Passport Agency, and the new Steps for Success highlight gives practical tactics on how to develop your own human skills. The new Tips for Managing around the Globe highlight gives practical insights about how to manage international experiences to best build international expertise. New material has also been added describing the salary levels of top managers.

PART 2: MODERN MANAGEMENT CHALLENGES

- **Chapter 2, “Managers, Society, and Sustainability”** This newly named chapter has been extensively revised and includes an added focus on sustainability. It opens with a new Challenge Case, “IKEA Builds on Its Commitment to the Environment.” Major management and social topics like good corporate citizenship, social responsibility, social responsiveness, social responsibility challenges, philanthropy, sustainability, and ethics are all emphasized. New highlights include discussion about whether or not clothing retailers are responsible for Bangladeshi garment workers, how General Mills focuses on achieving sustainability, and steps for building an ethical work environment.
- **Chapter 3, “Management and Diversity”** This chapter, which opens with a new Challenge Case regarding diversity at GE Lighting, focuses on how to establish and maintain a workforce that includes a diverse assortment of human characteristics, all of which aid an organization in goal attainment. New coverage includes a discussion of the X, Y, Baby Boomer, and Silent generations. Freshness has been added to the chapter in the form of new coverage of stereotypes, the presentation of Sodexo as an example of how to promote diversity globally, and tips on how to motivate a multigenerational workforce.
- **Chapter 4, “Managing in the Global Arena”** This chapter focuses on managing company operations across various countries. The chapter opens with a Challenge Case on McDonald’s and its global exploits. New coverage in this chapter emphasizes managing risk globally, leading in other cultures, and focusing on ethics in global situations. The chapter ends with a new case, “Coca-Cola’s Effort to Refresh the Whole World.”

PART 3: PLANNING

This section elaborates on planning as a primary management function.

- **Chapter 5, “Plans and Planning Tools”** This chapter provides a focused and unified presentation of the essentials of planning. The new Challenge Case explores how Wal-Mart uses planning concepts to improve performance. The chapter also includes a new example illustrating how Audi establishes production goals. The new Steps for Success feature reviews key steps that companies can take to write effective policies and procedures. The new Tips for Managing around the Globe feature shows how Mars Inc. uses forecasting to predict cocoa production levels. The chapter also provides recent and relevant examples related to the product life cycle. The new Practical Challenge highlight illustrates how two construction companies used scheduling techniques to meet project deadlines.
- **Chapter 6, “Making Decisions”** This chapter details the primary concepts involved with decision making. The new Tips for Managing around the Globe feature illustrates the

processes used by Shaw Industries to make good decisions around the globe. The new Practical Challenge feature reviews how K’Nex Brands makes decisions that are consistent with the company’s important goal of maintaining manufacturing in the United States. The new Steps for Success highlight presents key steps to improve group decision making.

- **Chapter 7, “Strategic Planning: Strategies, Tactics, and Competitive Dynamics”** This chapter includes the latest research on strategic planning. The new Challenge Case focuses on how Facebook uses its strategy to gain a competitive advantage over its rivals. The chapter includes new coverage of the Affordable Care Act and its relationship to strategy. The chapter also includes a new example to illustrate how Hershey’s is using strategy to expand internationally. The new Steps for Success feature outlines how asking the right questions can help in the strategy formulation process. The new Tips for Managing around the Globe feature illustrates how Tata Motors has adapted its strategy to succeed internationally. The new Practical Challenge highlight illustrates the competitive dynamics taking place between Amazon and traditional retailers such as Home Depot and Target. The chapter concludes with a new end-of-chapter case that examines Nucor’s strategy and mission statement.

PART 4: ORGANIZING

This section discusses organizing activities as a major management function.

- **Chapter 8, “Fundamentals of Organizing”** This chapter details the key concepts involved with organizing. The chapter begins with a new Challenge Case exploring how Microsoft adopted a new organizational structure to adapt to its competitive environment. The new Practical Challenge highlight illustrates how the Massachusetts Bay Transportation Authority centralized information to coordinate its security activities. The new Tips for Managing around the Globe highlight shows how Yum Brands established an international division to better serve its employees and customers around the world. The new Steps for Success highlight explains how companies can better implement matrix organizational structures; the chapter also includes new material on organic versus mechanistic organizational structures. The chapter concludes with a new end-of-chapter case illustrating the role of organizational structure in the success of Shutterstock.
- **Chapter 9, “Responsibility, Authority, and Delegation”** This chapter details the importance of responsibility, authority, and delegation in managerial effectiveness. The new Practical Challenge highlight illustrates how the Extended Stay America hotel chain uses “Get Out of Jail, Free” cards to help foster innovation among employees. The new Tips for Managing around the Globe highlight shows how Four Seasons Hotels and Resorts uses decentralization to succeed in international markets. The new Building Your Management Skills Portfolio exercise discusses the management challenges facing Charlie Strong, the new head football coach at the University of Texas.
- **Chapter 10, “Human Resource Management”** This chapter covers the primary concepts involved in understanding effective human resource management. The chapter provides discussion regarding the EEOC’s updated rules, which prohibit discrimination based on sexual orientation and genetic information. The chapter offers a new example of how the Moneta Group is handling its CEO succession process. The new Tips for Managing around the Globe feature reviews how European companies are adding more females to their boards of directors. The new Steps for Success highlight illustrates the advantages and challenges of computer-based training techniques. The new Practical Challenge highlight discusses the “scorecards” used by Citigroup for performance appraisals.
- **Chapter 11, “Changing Organizations: Stress, Conflict, and Virtuality”** This chapter discusses ways in which managers change organizations and the possible impacts of factors like stress, conflict, and virtuality in taking such action. The new Tips for Managing around the Globe highlight presents an account of how Avon tested introducing a change in one country before implementing the change in other countries, and the new Steps for Success highlight outlines how to manage stress caused by change. The new Practical Challenge highlight focuses on the method that Southwest Airlines uses to manage conflict. The new end-of-chapter case explores the use of virtual offices at Business Management Resource Group, an accounting firm.

PART 5: INFLUENCING

This section discusses ways that managers should deal with employees. Reflecting the spirit of the AACSB guidelines, which encourage the thorough coverage of human factors in business curriculum, the influencing section is quite comprehensive.

- **Chapter 12, “Influencing and Communication”** This chapter introduces the topic of managing people, defines interpersonal communication, and presents organizational communication as the primary vehicle managers use to interact with employees. The chapter opens with a new case, entitled “How Evernote’s Phil Libin Keeps Communication Flowing.” Other new coverage focuses on identifying influential people, overcoming cultural barriers in foreign countries, and using eye contact in the communication process.
- **Chapter 13, “Leadership”** This chapter covers various established approaches to leadership: the trait approach, the behavioral approach, and the situational approach, which includes the life cycle theory of leadership, Fiedler’s contingency theory of leadership, and the path–goal theory of leadership. Emerging leadership thought is also discussed: servant leadership, Level 5 leadership, transformational leadership, and authentic leadership. New coverage explores how leadership might vary from one country to another, what it takes to become a transformational leader, and how to lead for greatness. The new end-of-chapter case is “Jeff Bezos Is the Force of Nature behind Amazon.”
- **Chapter 14, “Motivation”** This chapter defines motivation, describes the motivation process, and provides useful strategies that managers can use to motivate organization members. Both content and process theories of motivation are discussed in detail. New material focuses on using rewards to motivate people, communicating rewards that align with organizational values, and making motivation work in organizations.
- **Chapter 15, “Groups and Teams”** This chapter emphasizes managing clusters of people as a means of accomplishing organizational goals. Coverage focuses on managing teams and on groups versus teams, virtual teams, problem solving, self-managed and cross-functional teams, stages of team development, empowerment, the effectiveness of self-managed teams, and factors contributing to team effectiveness. The chapter opens with a new Challenge Case, “Better Teamwork Makes Numerica Credit Union a Winner.” The new Steps for Success highlight focuses on leading group development, and the new Practical Challenge highlight focuses on solving problems as a team. The new Tips for Managing around the Globe highlight explores trust in international teams, and the new end-of-chapter case is “How Yum Brands Fosters Team Spirit.”
- **Chapter 16, “Managing Organization Culture”** The chapter opens with a new Challenge Case titled “Zappos Doesn’t Sell Shoes—It ‘Delivers WOW.’” Major topics include defining organization culture, the importance of organization culture, and building a high-performance organization culture. Special discussion focuses on cultural artifacts: organizational values, myths, sagas, language, symbols, ceremonies, and rewards. New material has been included on Marriott International’s code of conduct, how a team-oriented culture supports high performance, and telling stories to build corporate culture. The new end-of-chapter case is “Testing the Health of Goldman Sachs’s Culture.”

PART 6: CONTROLLING

This section presents control as a major management function. Major topics include fundamentals of control, controlling production, and information technology.

- **Chapter 17, “Controlling, Information, and Technology”** This chapter presents the latest research on controlling, information, and technology. The new Tips for Managing around the Globe highlight discusses how individuals exercise power differently in different countries because of cultural differences. The new Steps for Success highlight illustrates how companies use technology to harness “big data.” The new Practical Challenge highlight illustrates how organizations collect and exploit data from social media.
- **Chapter 18, “Production and Control”** The chapter describes Amazon’s use of robots to illustrate how companies incorporate automation to improve efficiency and reduce costs.

The new Practical Challenge highlight explores how hospitals use continuous improvement to improve quality. The new Tips for Managing around the Globe feature reviews how Volkswagen chooses its manufacturing sites across the globe. The new Steps for Success highlight illustrates the role of budgets in the controlling process.

Learning Modules

- **Learning Module 1, “Managing: History and Current Thinking”** This appendix presents the historical development of management thought that proceeds up to modern times. A new Challenge Case focuses on how CEO Alan Mulally emphasizes innovation to keep Ford Motor Company moving ahead. The new Practical Challenge highlight discusses how Bank of America redesigned work areas to improve productivity, while the new Steps for Success highlight provides advice on how to better understand employees. The new Tips for Managing around the Globe highlight describes crowdfunding, an innovative way that IBM encourages global innovation. A new appendix-ending case focuses on managing UPS in an Internet economy.
- **Learning Module 2, “Management and Entrepreneurship”** This appendix focuses on the discovery, evaluation, and exploitation of business opportunities. The new Practical Challenge highlight illustrates how Bohemian Guitars used crowdfunding to raise capital. The new Tips for Managing around the Globe feature shows how a student at MIT capitalized on an idea for a solar-powered stove to help rural residents in other countries cook their food. The new Steps for Success highlight describes the key steps an entrepreneur should take to start a new business. The appendix-ending case explains how one entrepreneur’s part-time job became a \$40 million business called Drybar.
- **Learning Module 3, “Encouraging Creativity and Innovation”** This appendix presents new research on creativity and innovation and reports on the efforts of the most innovative companies in America. Integrated throughout the appendix is an example demonstrating how Netflix used innovative techniques to produce dramas that are available only to its subscribers. The new Tips for Managing around the Globe feature describes how Michelin uses innovation and quality control to create tires that appeal to consumers all over the world. The new Practical Challenge highlight shows how the United Nations used creativity to help rebuild Indonesia after the 2004 tsunami. The Steps for Success feature describes how organizations use hackathons to spur innovation.

MODERN MANAGEMENT 14TH EDITION: THE SKILLS

From a pedagogy standpoint, the 14th edition of *Modern Management* continues its unique-in-the-marketplace focus of developing students’ management skills *across all of the primary management functions*. Each chapter opens by identifying a specific management skill on which the chapter focuses. The remainder of the chapter contains several purposefully placed features designed to help students develop that skill.

This focus on skill development is consistent with the recommendation of the Association to Advance Collegiate Schools of Business (AACSB), which provides higher-education professionals with well-founded standards for maintaining excellence in management education. The AACSB standards indicate that excellence in modern management education is achieved when students acquire both *knowledge* about management concepts and *skill* in applying that knowledge. According to these standards, management educators must help students understand and appreciate both the “why” and the “how” of management.

The following sections discuss the pedagogical features in this text that help students learn management theory and how to apply it.

1. **Chapter Target Skill:** Each chapter opens by identifying and defining the target management skill that is emphasized in that chapter. By focusing on this target skill early in the chapter, students immediately have a context for learning chapter concepts. For an example of a chapter’s target skill, see the definition of “social responsibility skill” on page 24.

2. **Learning Objectives:** In each chapter, a list of learning objectives follows the Chapter Target Skill. These objectives expand on the chapter target skill to help students further focus on learning critical chapter concepts.
3. **Challenge Case:** Each chapter opens with a Challenge Case. The purpose of the Challenge Case is to introduce students to real challenges faced by real managers and to demonstrate the usefulness of the chapter's concepts and related management skills in meeting those challenges. Each case summarizes a set of issues for a manager within a company and asks students how they would resolve the issues. Nine of the cases in this edition are new and focus on companies such as Ford Motor Company, IKEA, GE Lighting, and Facebook.
4. **Practical Highlights:** Market research revealed that instructors are particularly interested in highlights throughout the book that focus on practical applications of management concepts. New to this edition, each chapter contains one Steps for Success highlight, one Tips for Managing around the Globe highlight, and one Practical Challenge highlight. The primary objective of these highlights is to illustrate how practicing managers can apply management ideas to deal with everyday problems. As an example of a Tips for Managing around the Globe highlight, Chapter 16 shows how Marriott International crafted a code of conduct to help mold its corporate culture. As an illustration of a Practical Challenge highlight, Chapter 13 explains how the CEO of Xerox meets her leadership challenges. The Steps for Success highlight in Chapter 2 lists tactics that managers can take to create an ethical work environment. Taken together, the real-life examples illustrated in these highlights throughout the book help to reinforce the development of critical management skills.
5. **Challenge Case Summary:** Each chapter ends with a Challenge Case Summary. This section provides extensive narrative on how chapter concepts relate to the issues presented in the chapter-opening Challenge Case. To better understand this pedagogical feature, see the Challenge Case Summary for the chapter-opening "How Evernote's Phil Libin Keeps Communication Flowing" case on page 266.
6. **Developing Management Skill Activities:** Each chapter also ends with a rich array of learning activities that help students better understand management concepts and develop skills in applying those concepts. Specific activities are listed and explained below.
 - A. **Class Preparation and Personal Study:** This section gives students a series of activities to help them become adequately prepared to discuss the chapter in the classroom.
 1. **Reflecting on Target Skill.** Here, students are asked to refer back to the learning objectives at the beginning of the chapter to make sure that they've reached those objectives.
 2. **Know Key Terms** is a section in which a chapter's key terms are listed along with the page numbers on which the terms are discussed. For an example Know Key Terms section, see page 170 in the Strategic Planning chapter.
 3. **Know How Management Concepts Relate** contains essay questions related to chapter material. These questions help students focus on the interrelationships among chapter concepts and how those concepts relate to the management process. For a sample Know How Management Concepts Relate, see page 284 in the Influencing and Communication chapter.
 - B. **Management Skills Exercises:** This chapter-ending section contains many activities that help students develop skills related to chapter content.
 1. **Cases.** Each chapter concludes with two cases. The first of these cases is an extension of the chapter's Challenge Case, and students are given a series of discussion questions that stimulate further discussion of the Challenge Case. Page 25 contains an example of such questions related to "IKEA Builds on Its Commitment to the Environment," the Challenge Case in the Managers, Society, and Sustainability chapter.

The second concluding case has been specifically chosen to illustrate real-life management issues and the steps necessary to deal with those issues. Almost half of these specially chosen cases are new to this edition; these new end-of-chapter cases examine organizations such as Yum Brands, Jeff Bezos and Amazon, and UPS. For an example of one of these new end-of-chapter cases, see the Goldman Sachs case on page 385 of Chapter 16.

2. Experiential Exercises. Each chapter concludes with two types of experiential exercises. The first type is specially designed to help students develop knowledge and skill related to chapter content. For an example of this type of experiential exercise, see “Developing a Diversity Profile” on page 74 of the Management and Diversity chapter.

The second type is an exercise that focuses on helping students use chapter content to better manage their own careers. This exercise is called “You and Your Career,” and a sample of this exercise can be found on page 74 of the Management and Diversity chapter.

3. Building Your Management Skills Portfolio. This activity at the end of each chapter is specially designed to allow students to demonstrate the management skill they learned in that chapter. Instructors may choose to have students turn in hard or electronic copies of this assignment. In addition, instructors may ask students to present their completed portfolios in class. Students may also use this portfolio to help win a job during an employment interview. See “Delegating Football Duties at the University of Texas” on page 215 for an example of this type of activity.

MODERN MANAGEMENT: STUDENT LEARNING

Students often ask professors to suggest the best way to study to maximize learning. By using the components of *Modern Management* in a conscientious and systematic fashion, students can build their knowledge about management concepts and the skills to apply those concepts. Although the components of *Modern Management* are flexible and can be used for many different study processes, one suggested study process is presented below.

As shown in Figure 1, students can start their study of a chapter by Applying Management Concepts: Part 1. In this study process, students learn concepts by reading and studying each chapter and then by checking their progress in meeting the learning objectives presented at the beginning of the chapter. In addition, they can check their progress by seeing how well they can answer the essay questions at the end of the chapter. By checking their learning progress, students can pinpoint areas in which further study is needed before they move forward.

Once students are satisfied that they have learned chapter content, they can start their skills focus by Applying Management Concepts: Part 2. In this continuation of the study process, students first review the Chapter Target Skill and the Challenge Case Summary, and then they focus on learning how to apply management concepts by performing the application exercises assigned by their professor. Students might also work on exercises independently and do work that was not assigned by the professor. Application exercises include the Building Your Management Skills Portfolio, Experiential Exercises, and Cases.

COURSESMART

CourseSmart eTextbooks were developed for students looking to save on the cost of required or recommended textbooks. Students simply select their eText by title or author and, using any major credit card, purchase immediate access to the content for the duration of the course. With a CourseSmart eText, students can search for specific keywords or page numbers, take notes online, print out reading assignments that incorporate lecture notes, and bookmark important passages for later review. For more information or to purchase a CourseSmart eTextbook, visit www.coursesmart.com.

ACKNOWLEDGMENTS

The overwhelming success of *Modern Management* has continued for nearly four decades. The *Modern Management Learning Package*—this text and its ancillaries—has become a generally accepted academic standard for high-quality learning materials in colleges and universities throughout the world. These materials have been published in special “country editions” that serve the particular needs of management students in countries such as Canada and India. *Modern Management* has also been published in foreign languages, including Portuguese and Spanish, and is used in professional management training programs.

Certainly, we have received much personal satisfaction from and professional recognition because of the success of this text over the years. In truth, however, much of the credit for this text’s success continues to rightfully belong to many of our respected colleagues. Indeed, many key ideas for text development and improvement have come from others. Thus, we’re grateful for the opportunity to recognize the contributions of these individuals and extend to them our warmest personal gratitude for their professional insights and encouragement throughout the life of this project.

For this edition, several colleagues made valuable contributions through numerous tasks like reviewing manuscript and providing unsolicited ideas for improvement. These individuals offered different viewpoints and, in so doing, required us to constructively question our work. Thoughtful comments, concern for student learning, and insights regarding instructional implications of the written word characterized the high-quality feedback we received. These individuals are:

Dan S. Benson, Kutztown University of
Pennsylvania

Fred J. Dorn, University of Mississippi

Omid E. Furutan, University of La Verne

Reginald Hall, Tarleton State University

Robert W. Halliman, Austin Peay State University

Scott A. Quatro, Covenant College

Anthony W. Slone, Elizabethtown Community &
Technical College

Casey R. Smith, Shawnee State University

Many colleagues have made significant contributions to previous editions of this project that are still impacting this 14th edition. A list of such respected colleagues includes:

Don Aleksy, Illinois Valley College	Loren Kuzuhara, University of Wisconsin
Michael Alleruzzo, Saint Joseph's University	Gosia Langa, University of Maryland
Barry Axe, Florida Atlantic University	Theresa Lant, New York University
Karen Barr, Penn State University	Maurice Manner, Marymount College
Dan Baugher, Pace University	Jon Matthews, Central Carolina Community College
Gene Blackmun III, Rio Hondo College	Michelle Meyer, Joliet Junior College
Wayne Blue, Allegany College of Maryland	Angela Miles, North Carolina A&T State University
Elise A. Brazier, Northeast Texas Community College	Marcia Miller, George Mason University
Patricia M. Buhler, SPHR, Goldey-Beacom College, Wilmington, DE	Robert Morris, Florida State College of Jacksonville
Michael Carrell, Morehead State University	Jennifer Morton, Ivy Tech Community College
Tony Cioffi, Business Division, Lorain County Community College	Rhonda Palladi, Georgia State University
Christy Corey, University of New Orleans	Donald Petkus, Indiana University
Helen Davis, Jefferson Community College—Downtown Louisville	James I. Phillips, Northeastern State University
E. Gordon DeMeritt, Shepherd University	Richard Ratliff, Shari Tarnutzer, and their colleagues, Utah State University
Lon Doty, San Jose State University	Paul Robillard, Bristol Community College
Megan Endres, Eastern Michigan University	Tim Rogers, Ozarks Technical College
Joyce Ezrow, Anne Arundel Community College	Gisela Salas, Webster University, Barry University, St. Leo University, University of the Rockies
Ronald A. Feinberg, Business, Accounting & Paralegal Studies, Suffolk Community College	James Salvucci, Business Management, Curry College, Milton, MA
William Brent Felstead, College of the Desert	Duanne Schecter, Muskegon Community College
Robert Freeland, Columbia Southern University	Johnny Shull, Central Carolina Community College
Theresa Freihoefer, Central Oregon Community College	Denise M. Simmons, Northern Virginia Community College
Dwight D. Frink, University of Mississippi	Joe Simon, Casper College
George Gannage, West Central Technical College	Randi L. Sims, Nova Southern University
Wayne Gawlik, Joliet Junior College	Gregory Sinclair, San Francisco State University
Ashley Geisewite, Southwest Tennessee Community College	L. Allen Slade, Covenant College
Adelina Gnanlet, California State University	M. Smas, Kent State University
Joseph Goldman, University of Minnesota	Miles Smayling, Minnesota State University, Mankato
Scott D. Graffin, Terry College of Business, University of Georgia Athens	Charles I. Stubbart, Southern Illinois University Carbondale
Jamey R. Halleck, Marshall University	Dr. Peter Szende, Boston University
LeaAnna Harrah, Marion Technical College	Tom Tao, Lehigh University
Heidi Helgren, Delta College	Paul Thacker, Macomb Community College
Jo Ann Hunter, Community College of Allegheny County	Don Tobias, Cornell University
Steven E. Huntley, Florida Community College at Jacksonville	Larry Waldorf, Boise State University
Robert E. Kemper, Northern Arizona University	Gloria Walker, Florida Community College at Jacksonville
Toni Carol Kind, Binghamton University	Cindy W. Walter, Antelope Valley College
Dennis L. Kovach, Community College of Allegheny County	Bob Waris, University of Missouri Kansas City

We would like to thank Karen Schenkenfelder for assisting us in the development of this edition. Most especially for researching and writing the new Challenge Cases and Summaries, as well as integrating the new MyLab assets. She was also instrumental in aiding our research into a fresh and new photo program for this edition.

In addition, we would like to thank Jane Murtaugh for updating all of the supplements to the highest quality. She worked tirelessly to provide instructional aids, and we thank her for her time and efforts. The authors would also like to acknowledge Karin Williams and her MyLab team—Linda Hoffman, Ivy Tech Community College - Fort Wayne; Alysia D. Lambert, Indiana University Southeast; Denise M. Lorenz, Wake Technical Community College; Gordon Schmidt, Indiana University-Purdue University Fort Wayne; Sarah Shepler, Ivy Tech Community College—did a terrific job of bringing the textbook's content to life with practical and relevant MyLab Online exercises.

We will always owe Professor Lee A. Graf, Professor Emeritus, Illinois State University, a huge debt of gratitude for helping to build the success of *Modern Management* throughout the early years of this project. Dr. Graf's countless, significant contributions in many different areas have certainly been instrumental in building the reputation and widespread acceptance of the text and its accompanying supplements. More important than our professional relationship, Dr. Graf is our friend.

Members of our Pearson family also deserve personal and sincere recognition. Our book team has been nothing but the best: Stephanie Wall, Editor-in-Chief; Kris Ellis-Levy, Senior Acquisitions Editor; Sarah Holle, Program Manager; Bernard Ollia VI, Editorial Assistant; Maggie Moylan, Vice President, Marketing; Anne Fahlgren, Product Marketing Manager; Lenny Raper, Field Marketing Manager; Erin Gardner, Strategic Marketing Manager; Meghan De Maio and Nicole Suddeth, Project Managers; and the Media Team: Paul Gentile, Vice President, Director of Digital Strategy & Assessment; Brian Surette, Digital Editor; Robin Lazrus, Digital Development Manager; and Alana Coles, Digital Project Manager. Needless to say, without our Pearson colleagues, there would be no *Modern Management*.

Sam Certo would like to give special recognition to his colleagues at Rollins College for their support. Special acknowledgment goes to Craig McAllaster, dean of the Crummer Graduate School of Business at Rollins College, and to Charles "Chuck" Steinmetz, a highly regarded entrepreneur, for their personal support and encouragement of his work over the years.

Sam Certo would also like to acknowledge his family. Thanks to his wife, Mimi, for her continual support throughout this revision. She provides encouragement throughout every part of his life! Brian, Sarah and Andrew, Matthew, and Trevis and Melissa always help to build confidence and focus in him. To Skylar, Lexie, Landon, and Sophie, a very special thanks! You guys always help "Pop" to remember that the future looks bright!

Most of all, thanks to God for all of life's blessings.

Trevis Certo would like to thank his colleagues at Arizona State University for their continued support. He would also like to thank Melissa, Skylar, Lexie, and Landon for humbling him every day. Finally, and most importantly, he would like to thank God for blessing him with a beautiful and healthy family.

Samuel C. Certo

S. Trevis Certo

About the Authors

Dr. Samuel C. Certo is presently the Steinmetz Professor of Management at the Roy E. Crummer Graduate School of Business at Rollins College. Over his career, Dr. Certo has received many prestigious awards, including the Award for Innovative Teaching from the Southern Business Association, the Instructional Innovation Award granted by the Decision Sciences Institute, and the Charles A. Welsh Memorial Award for outstanding teaching. He has also received the Bornstein and Cornell Awards for teaching and global recognition of his scholarship.

Dr. Certo has written several well-regarded textbooks, including *Modern Management: Concepts and Skills*, *Strategic Management: Concepts and Applications*, and *Supervision: Concepts and Applications*. His textbooks have been translated into several languages for distribution throughout the world. His newest book, *Chasing Wisdom: Finding Everyday Leadership in Business and Life*, recommends combining business and biblical principles to build successful organizations.

A past chairperson of the Management Education and Development Division of the Academy of Management, he has had the honor of being presented with that group's Excellence of Leadership Award. Dr. Certo has also served as president of the Association for Business Simulation and Experiential Learning, as associate editor for *Simulation & Games*, and as a review board member of the *Academy of Management Review*. His consulting experience has been extensive, including notable participation on boards of directors in both private and public companies.

Dr. S. Trevis Certo is the Jerry and Mary Anne Chapman Professor of Business and Department Chair of the Management Department in the W. P. Carey School of Business at Arizona State University. Dr. Certo holds a Ph.D. in strategic management from the Kelley School of Business at Indiana University. His research focuses on corporate governance, top management teams, initial public offerings (IPOs), and research methodology. Dr. Certo's research has appeared in the *Academy of Management Journal*, *Academy of Management Review*, *Strategic Management Journal*, *Journal of Management*, *California Management Review*, *Journal of Business Venturing*, *Entrepreneurship Theory and Practice*, *Business Ethics Quarterly*, *Journal of Business Ethics*, *Business Horizons*, *Journal of Developmental Entrepreneurship*, and *Across the Board*. Dr. Certo's research has also been featured in publications such as *BusinessWeek*, the *New York Times*, the *Wall Street Journal*, the *Washington Post*, and *Money* magazine.

Dr. Certo is a member of the Academy of Management and serves on the editorial review boards of the *Academy of Management Journal*, *Strategic Management Journal*, and *Academy of Management Learning and Education*. Prior to joining the faculty at Arizona State, he taught undergraduate, MBA, EMBA, and Ph.D. courses in strategic management, research methodology, and international business at Indiana University, Texas A&M University, Tulane University, and Wuhan University in China.

Introducing Modern Management

Concepts and Skills

TARGET SKILL

Management Skill: the ability to work with people and other organizational resources to accomplish organizational goals

OBJECTIVES

To help build my *management skill*, when studying this chapter, I will attempt to acquire:

- 1 An understanding of a manager's task
- 2 Knowledge about the management process and organizational resources
- 3 An understanding of management skill as the key to management success
- 4 Insights concerning what management careers are and how they evolve

 **MyManagementLab: Learn It**

If your instructor has assigned this activity, go to mymanagementlab.com before studying this chapter to take the Chapter Warm-Up and see what you already know.

An IBM Success Story: Rodney Adkins

IBM has prospered in the high-tech industry by innovating and knowing when to change focus. The company gained fame for making huge mainframe computers, then introduced one of the most popular early personal computers (the IBM PC), and later shifted its growth efforts to offering software and services that keep businesses humming. Running such a company requires an understanding of what technology can do, coupled with abilities such as making complex decisions and inspiring employees to contribute their best.

When IBM recently needed someone to fill the top job of chief executive officer, one of the managers considered was Rodney C. Adkins, IBM's senior vice president for its Systems and Technology Group. Adkins's position involves tremendous responsibility. The group he oversees has about 50,000 employees and generates \$18 billion in revenue from products that include semiconductors, servers, system software, and more. Its activities range from acquiring supplies to manufacturing products to filling orders, all in a supply chain that spans the globe.

The story of how Adkins arrived at this position tells us a lot about managers and what they do. Growing up in Miami's Liberty City neighborhood, Adkins was fascinated with technology. For fun, he would take apart his family's home appliances to see how they worked. He left home to study physics at Rollins College, near Orlando, where he was one of 25 African Americans in a student body of 1,200.

Rodney Adkins's broad-based knowledge and varied career path have led him to his current position, senior vice president of IBM's Systems and Technology Group.

After graduation, he landed a job as a hardware engineer with IBM, where he has built his career. He left only once, to earn a master's degree in electrical engineering at Georgia Institute of Technology.

In his 19 positions during his 30 years at IBM, Adkins has made a point of broadening his experience beyond his original specialty. In his first position, Adkins focused on quality assurance for IBM printers. As he advanced, he sought challenging jobs outside product engineering so that he would be skilled in other business functions besides developing products. He has worked in most of the company's businesses, including hardware and software, PCs, and mobile computing. The division he currently leads helped develop the server system for the Watson computer, whose blazing-fast processing speeds famously enabled it to defeat humans on the *Jeopardy!* television game show. One of his assignments took him to Japan, where he worked with engineers to develop IBM's first mobile PC.

Choosing which position to take next is not always easy, but along the way, senior executives at IBM have served as mentors to Adkins, helping him identify areas where he can apply his experience and areas where he needs to grow. At one point, for example, an executive vice president, now retired, advised Adkins to gain experience in product branding and development, rather than leading a sales group. That decision better positioned him for greater responsibility later on.

And what of the CEO position Adkins was considered for? This time, it went to Virginia Rometty, who had led IBM's expansion into consulting. No doubt Rometty will depend on Adkins to keep his group on a successful course, and he may yet become IBM's top executive someday.¹

THE MODERN MANAGEMENT CHALLENGE

The Challenge Case illustrates a few of the ways that Rodney Adkins developed his personal management skills at IBM. After studying chapter concepts, read the Challenge Case Summary at the end of the chapter to help you to relate chapter content to developing management skills to inspire innovation.

Jon Simon/Newscom

A MANAGER'S TASK

Managers influence all phases of modern organizations. Plant managers run manufacturing operations that produce the clothes we wear, the food we eat, and the automobiles we drive. Sales managers maintain a sales force that markets goods. Personnel managers provide organizations with a competent and productive workforce. The “jobs available” section in the classified advertisements of any major newspaper describes many different types of management activities and confirms the importance of management.

Managers are also important because they serve a very special purpose in our lives. They are the catalysts for new and exciting products of all kinds that keep our economy and standard of living moving forward. One such new product of today is the Transportable Exam Station (TES), which brings the doctor to you. Other such products include Apple's new head-mounted iPhone, Microsoft's new tablet called Surface, and Chevrolet's new electric car called Volt.

In addition to understanding the significance to managers and society of managerial work and its related benefits, prospective managers need to know what the management task entails. The sections that follow introduce the basics of the management task through discussions of the roles and definitions of management, the management process as it pertains to management functions and organizational goal attainment, and the need to manage organizational resources effectively and efficiently.

Our society could neither exist as we know it today nor improve without a steady stream of managers to guide its organizations. Peter Drucker emphasized this point when he stated that effective management is probably the main resource of developed countries and the most needed resource of developing ones.² In short, all societies desperately need good managers.

Management is important to society as a whole as well as vital to many individuals who earn their livings as managers. Government statistics show that management positions have increased from approximately 10 to 18 percent of all jobs since 1950. Managers come from varying backgrounds and have diverse educational specialties. Many people who originally train to be accountants, teachers, financiers, or even writers eventually make their livelihoods as managers. Although in the short term, the demand for managers varies somewhat, in the long term, managerial positions can yield high salaries, status, interesting work, personal growth, and intense feelings of accomplishment.

Over the years, *CNNMoney* has become well known for its periodic rankings of total compensation paid to top managers in the United States. Based on the 2013 *CNNMoney* compensation report, **Table 1.1** shows the names of the 10 most highly paid chief executives, the company they worked for, and how much they earned. Their earnings include salary, stock, and stock options.

An inspection of the list of highest paid executives in Table 1.1 reveals that the executives are all men. Based on the results of a recent survey at the *Wall Street Journal*, **Figure 1.1** illustrates a broad salary gap between men and women. According to Figure 1.1, whereas women and men make up roughly the same proportion of the workforce, men hold a disproportionate number of higher-paying jobs. In addition, a recent study by the American Association of

TABLE 1.1 The 10 Highest Compensated CEOs, 2013

Ranking	CEO Name	Company Name	Paid (\$ millions)
1	Larry Ellison	Oracle	96.2
2	Richard M. Bracken	HCA	38.6
3	Bob Iger	Walt Disney	37.1
4	Mark G. Parker	Nike	35.2
5	Philippe P. Dauman	Viacom	33.4
6	John J. Donahoe	eBay	29.7
7	Howard Schultz	Starbucks	28.9
8	Stephen I. Chazen	Occidental Petroleum	28.5
9	Ken Chenault	American Express	28
10	Louis C. Camilleri	Philip Morris International	24.7

Source: “20 Top-Paid CEOs,” 2013 *CNNMoney*, <http://www.money.cnn.com>.

FIGURE 1.1
The salary gap between genders

University Women indicated that the discrepancy between the pay of men versus the pay of women is a national phenomenon and is not isolated to a particular state or region.³

Predictably, concerns that certain managers are paid *too* much have been raised. For example, consider the notable criticism in recent years regarding the high salary paid to Robert R. Nardelli, former CEO of Home Depot.⁴ Disapproval of the excessive compensation paid to Nardelli surfaced in the popular press as well as in statements by stockholders. An article in the *Wall Street Journal*, for example, questioned whether Nardelli was worth the amount he received.⁵ Nardelli had been paid \$63.5 million during a five-year period at Home Depot, while company shares lost 6 percent of their value. In the end, as with any manager, Nardelli's compensation should have been determined by how much value he added to the company. The more value he added, the more compensation he deserved. As a result of the growing criticism about Nardelli's compensation and Nardelli's resistance to modify his compensation level, he was fired.

Some evidence suggests that societal concern about management compensation goes well beyond one manager at one company.⁶ A recent Senate Commerce Committee meeting, for example, focused on trying to justify lavish pay programs for managers at companies such as Tyco International and American Airlines when the companies were in financial trouble and laying off employees. Senators seemed unified in questioning the logic that justifies the average CEO salary being more than 400 times higher than a production worker's wages. This Senate Committee meeting should be an important signal that managers who do not exercise judicious self-control about their salaries may face future legislative control.

The Role of Management

Essentially, the role of managers is to guide organizations toward goal accomplishment. All organizations exist for certain purposes or goals, and managers are responsible for combining and using organizational resources to ensure that their organizations achieve their purposes. Management moves an organization toward its purposes or goals by assigning activities for organization members to perform. If the activities are designed effectively, the production of each individual worker will contribute to the attainment of organizational goals. Management strives to encourage individual activity that will lead to reaching organizational goals and to discourage individual activity that will hinder the accomplishment of those goals. Because the process of management emphasizes the achievement of goals, managers must keep organizational goals in mind at all times.⁷

Defining Management

Students of management should be aware that the term *management* can be, and often is, used in different ways. For instance, it can refer simply to the process that managers follow in order to accomplish organizational goals. It can also refer to a body of knowledge; in this context, management is a cumulative body of information that furnishes insights on how to manage. The term *management*

can also refer to the individuals who guide and direct organizations or to a career devoted to the task of guiding and directing organizations. An understanding of the various uses and related definitions of the term will help you avoid miscommunication during management-related discussions.

As used most commonly in this text, **management** is the process of reaching organizational goals by working with and through people and other organizational resources. A comparison of this definition with the definitions offered by several contemporary management thinkers indicates broad agreement that management encompasses the following three main characteristics:

1. It is a process or series of continuing and related activities.
2. It involves and concentrates on reaching organizational goals.
3. It reaches these goals by working with and through people and other organizational resources.

A discussion of each of these characteristics follows.

The Management Process: Management Functions

The four basic **management functions**—activities that make up the management process—are described in the following sections.

Planning Planning involves choosing tasks that must be performed to attain organizational goals, outlining how the tasks must be performed, and indicating when they should be performed. Planning activity focuses on attaining goals. Through their plans, managers outline exactly what organizations must do to be successful. Planning is essential to getting the “right” things done.⁸ Planning is concerned with organizational success in the near future (short term) as well as in the more distant future (long term).⁹

Organizing Organizing can be thought of as assigning the tasks developed under the planning function to various individuals or groups within the organization. Organizing, then, creates a mechanism to put plans into action. People within the organization are given work assignments that contribute to the company’s goals. Tasks are organized so that the output of individuals contributes to the success of departments, which, in turn, contributes to the success of divisions, which ultimately contributes to the success of the organization. Organizing includes determining tasks and groupings of work.¹⁰ Organizing should not be rigid, but adaptable and flexible to meet challenges as circumstances change.¹¹

Influencing Influencing is another of the basic functions within the management process. This function—also commonly referred to as *motivating*, *leading*, *directing*, or *actuating*—is concerned primarily with the people within organizations.¹² Influencing can be defined as guiding the activities of organization members in appropriate directions. An appropriate direction is any direction that helps the organization move toward goal attainment. The ultimate purpose of influencing is to increase productivity. Human-oriented work situations usually generate higher levels of production over the long term than do task-oriented work situations because people find the latter type less satisfying.

Controlling Controlling is the management function through which managers:

1. Gather information that measures recent performance within the organization.
2. Compare present performance to preestablished performance standards.
3. From this comparison, determine whether the organization should be modified to meet pre-established standards.

This manager works with people and other resources to achieve the organization’s goals.

FIGURE 1.2

Classic mistakes commonly made by managers in carrying out various management functions

Planning

Not establishing objectives for all important organizational areas
Making plans that are too risky
Not exploring enough viable alternatives for reaching objectives

Organizing

Not establishing departments appropriately
Not emphasizing coordination of organization members
Establishing inappropriate spans of management

Influencing

Not taking the time to communicate properly with organization members
Establishing improper communication networks
Being a manager but not a leader

Controlling

Not monitoring progress in carrying out plans
Not establishing appropriate performance standards
Not measuring performance to see where improvements might be made

Controlling is an ongoing process. Managers continually gather information, make their comparisons, and then try to find new ways of improving production through organizational modification.

History shows that managers commonly make mistakes when planning, organizing, influencing, and controlling. **Figure 1.2** shows a number of such mistakes managers make related to each function. Studying this text carefully should help managers avoid making such mistakes.

MANAGEMENT PROCESS AND ORGANIZATIONAL RESOURCES

Although we have discussed the four functions of management individually, planning, organizing, influencing, and controlling are integrally related and therefore cannot be separated in practice. **Figure 1.3** illustrates this interrelationship and also indicates that managers use these activities solely for reaching organizational goals. Basically, these functions are interrelated because the performance of one depends on the performance of the others. For example, organizing is based on well-thought-out plans developed during the planning process, and influencing systems must be tailored to reflect both these plans and the organizational design used to implement them. The fourth function, controlling, involves possible modifications to existing plans, organizational structure, or the motivation system used to develop a more successful effort.

FIGURE 1.3

Relationships among the four functions of management used to attain organizational goals

Practical Challenge: Attaining Goals

Michael Hoffman Achieves User Satisfaction at New York Passport Agency

To see how managers can contribute to attaining goals, consider Michael Hoffman, who works for the State Department as Regional Director of the New York Passport Agency. The busy facility he directs, on Hudson Street in New York City, is one of only 17 where people may pick up their passport if they are traveling within 14 days. Therefore, many clients are under stress; perhaps an emergency came up overseas, or they discovered at the airport that the passport had expired. Hoffman's goal is to serve clients efficiently, fulfilling their requests to the extent allowed.

Hoffman uses the resources under his control. He organizes waiting rooms and plans the flow of clients for maximum efficiency. He must use the State Department's software but has discretion to promote and discipline agents according to their performance. Strong leadership builds a dedicated staff who are committed to helping clients, even working in unheated offices after Hurricane Sandy in 2012. Hoffman's goal-oriented management has helped create an agency that scores 4.5 out of 5 stars on the Yelp consumer ratings website, far ahead of other government agencies.¹³

To be effective, a manager must understand how the four management functions are practiced, not simply how they are defined and related. Thomas J. Peters and Robert H. Waterman, Jr., studied numerous organizations—including Frito-Lay and Maytag—for several years to determine what management characteristics best describe excellently run companies. In their book *In Search of Excellence*, Peters and Waterman suggest that planning, organizing, influencing, and controlling should be characterized by a bias for action; a closeness to the customer; autonomy and entrepreneurship; productivity through people; a hands-on, value-driven orientation; “sticking to the knitting”; a simple organizational form with a lean staff; and simultaneous loose-tight properties.

This brief introduction to the four management functions will be further developed in Parts 3 through 6 of this text.

Management and Organizational Resources

Management must always be aware of the status and use of **organizational resources**. These resources, composed of all assets available for activation during the production process, are of four basic types:

1. Human
2. Monetary
3. Raw materials
4. Capital

As **Figure 1.4** shows, organizational resources are combined, used, and transformed into finished products during the production process.

Human resources are the people who work for an organization. The skills they possess and their knowledge of the work system are invaluable to managers. Monetary resources are the amounts of money that managers use to purchase goods and services for the organization. Raw materials are the ingredients used directly in the manufacturing of products. For example, rubber is a raw material

FIGURE 1.4
Transformation of organizational resources into finished products through the production process

that Goodyear would purchase with its monetary resources and use directly in manufacturing tires. Capital resources are the machines used during the manufacturing process. Modern machines, or equipment, can be a major factor in maintaining desired production levels. Worn-out or antiquated machinery can make it impossible for an organization to keep pace with competitors.

Managerial Effectiveness As managers use their resources, they must strive to be both effective and efficient. **Managerial effectiveness** refers to management’s use of organizational resources in meeting organizational goals. If organizations are using their resources to attain their goals, the managers are declared effective. In reality, however, managerial effectiveness can be measured by degrees. The closer an organization comes to achieving its goals, the more effective its managers are considered. Managerial effectiveness, then, exists on a continuum ranging from *ineffective* to *effective*.

Managerial Efficiency **Managerial efficiency** is the proportion of total organizational resources that contribute to productivity during the manufacturing process.¹⁴ The higher this proportion, the more efficient is the manager. The more resources wasted or unused during the production process, the more inefficient is the manager. In this situation, *organizational resources* refer not only to raw materials that are used in manufacturing goods or services but also to related human effort.¹⁵ Like management effectiveness, management efficiency is best described as being on a continuum ranging from inefficient to efficient. *Inefficient* means that a small proportion of total resources contributes to productivity during the manufacturing process; *efficient* means that a large proportion of resources contributes to productivity.

As **Figure 1.5** shows, the concepts of managerial effectiveness and efficiency are obviously related. A manager could be relatively ineffective—with the consequence that the organization is making little progress toward goal attainment—primarily because of major inefficiencies or poor utilization of resources during the production process. In contrast, a manager could be somewhat effective despite being inefficient if demand for the finished goods is so high that the manager can get an extremely high price per unit sold and thus absorb inefficiency costs. Thus, a manager can be effective without being efficient, and vice versa. To maximize organizational success, however, both effectiveness and efficiency are essential.

 **MyManagementLab: Watch It, Management Roles at azTeen Magazine**
 If your instructor has assigned this activity, go to mymanagementlab.com to watch a video case about *azTeen* magazine and answer the questions.

FIGURE 1.5
 Various combinations
 of managerial effectiveness
 and managerial efficiency

As an example of achieving efficiency and effectiveness, consider Telstra Corporation, Australia's largest telecommunication company. Like its counterparts the world over, Telstra faces the challenges of a changing industry in which mobile phones are fast becoming more popular than the landline business on which Telstra built its fortunes. To survive, Telstra is scrambling to create a nimble management team and prune the bureaucracy that slows down decision making and internal operations. In a recent reorganization of his executive team, Telstra CEO David Thodey created four groups—customer sales and support, product and marketing innovation, operations, and corporate support—all focused on effectiveness: getting more competitive while also attracting and retaining customers.¹⁶

The Universality of Management

Management principles are universal: That is, they apply to all types of organizations (businesses, churches, sororities, athletic teams, hospitals, etc.) and organizational levels.¹⁷ Naturally, managers' jobs vary somewhat from one type of organization to another because each organizational type requires the use of specialized knowledge, exists in unique working and political environments, and uses different technology. However, job similarities are found across organizations because the basic management activities—planning, organizing, influencing, and controlling—are common to all organizations.

The Theory of Characteristics Henri Fayol, one of the earliest management writers, stated that all managers should possess certain characteristics, such as positive physical and mental qualities and special knowledge related to the specific operation.¹⁸ B. C. Forbes emphasized the importance of certain more personal qualities, inferring that enthusiasm, earnestness of purpose, confidence, and faith in their own worthiness are primary characteristics of successful managers. Forbes described Henry Ford as follows:

A Forbes article described the characteristics of a successful business leader by describing Henry Ford. According to the article, every successful business starts with an individual like Ford who is enthusiastic, believes in the organization's purpose, is self-confident, and believes in the high value of what the organization aims to accomplish. Like any business leader, Henry Ford certainly faced many difficulties and high challenges in building the Ford Motor Company. It can be argued that only Henry Ford's enthusiastic and continued support of his company saved both him and his company from certain failure.¹⁹

Fayol and Forbes can describe desirable characteristics of successful managers only because of the universality concept: The basic ingredients of successful management are applicable to all organizations.

MANAGEMENT SKILL: THE KEY TO MANAGEMENT SUCCESS

Thus far, the introduction to the study of management has focused on discussing concepts such as the importance of management, the task of management, and the universality of management. This section continues the introduction to management by defining management skill and presenting both classic and more contemporary views of management skills thought to ensure management success.

Defining Management Skill

No introduction to the field of management would be complete without a discussion of management skill. **Management skill** is the ability to carry out the process of reaching organizational goals by working with and through people and other organizational resources. Learning about management skill and focusing on developing it are of critical importance because possessing such skill is generally considered the prerequisite for management success.²⁰ Because management skills are so critical to the success of an organization, companies commonly focus on possible steps that can be taken to improve the skills of their managers.
